Supreme Court Clerk  
P.O. Box 30052

Dear Supreme Court Clerk,

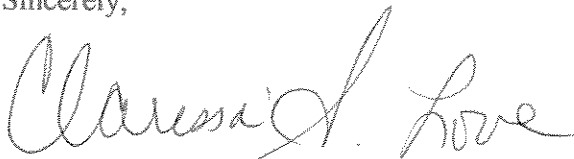

It has come to my attention that the Supreme Court is considering a request to make changes to certain Michigan Law(s) regarding individuals with non-cancerous asbestos lung disease.

I protest the Supreme Courts involvement in this matter. It is a fact that the Michigan Constitution as well as the United States Constitution makes it clear that judges are not to make the law but rather interpret the law.

Furthermore, the problem isn't with the law, but in the failure of the corporations to take responsibility for their bad actions and the willingness of big business and certain conservative republican judges to blame the victims of corporate misconduct instead of holding the corporations accountable.

I urge you to leave the law as it is and concentrate on what is more important – righting the wrongs of big business which is more concerned with profits than the workers directly responsible for those profits.

Sincerely,

Clarissa A. Love
